

Together, as a full school community, we care for the environment by taking action and raising awareness about the health of the planet.

Some of the ways we do this are:

- Choosing GOOS
- Turning off the lights / reducing electricity & device use
- Eating communal waste-free school lunches
- Enjoying regular meatless meals
- Using reusable water bottles
- Bringing “Super Snacks” (wrapper-free snacks)
- Diverting textile waste through our clothing swap and used uniforms
- Planning craft activities using recycled materials!
- Planting trees and building a forest through Canada Forest Trust, to offset our carbon footprint
- Celebrating Earth Hour / Earth Day
- Carrying out clean-ups of local parks and playgrounds
- Organizing and enjoying “Take Me Outside Day”
- Donating to WWF and other environmental organizations and campaigns
- Always reducing; reusing; recreating; rethinking!

Our school song reminds us that we are:

One world, one school,
Citizens of the global village.
Sharing our humanity,
The earth’s sustainability.

One school, one child
Each of us can make a difference.
Learning to act in a world,
That is always changing.

More action; less carbon!
